### SHORT COURSE DESCRIPTION:

Course participants will learn the basic principles of using lasers in a variety of non-surgical procedures within the fields of minimally invasive gynecology. The entire course is constituted of six topics covering the use of FotonaSmooth Erbium laser systems in indications of: Vaginal Relaxation Syndrome (VRS), Genitourinary Syndrome of Menopause (GSM), Stress Urinary Incontinence (SUI), Pelvic Organ Prolapses (POP), Lichen Sclerosus and post Episiotomies scars. Each lecture will last 30 minutes and will have 10 minutes for discussion. Upon completing the End-of-Course Test the participants will receive the Course Certificate.

In association with:
