

The 32nd World Congress on
Controversies in Obstetrics,
Gynecology & Infertility (COGI)
All About Women's Health

November 21-23, 2024
Lisbon, Portugal
Scientific Program

www.cogi-congress.org

THURSDAY, NOVEMBER 21

13:00-14:30	LONG TERM FOLLOW UP IVF NEWBORNS	HALL A
Capsule	Discussion of issues related to the all field of OBGYN and infertility	
Chairpersons	Zion Ben Rafael, Israel Bart Fauser, Netherlands	
13:00-13:35	Debate: ART and cardiac anomalies of newborns: Is it a problem?	
13:00-13:10	Yes: Gemma Casals, Spain	
13:10-13:20	No: Anja Pinborg, Denmark	
13:20-13:35	Discussion	
13:35-14:10	Debate: Artificial intelligence: Ready for clinical use?	
13:35-13:45	Yes: Núria Correa, Spain	
13:45-13:55	No: Aisling Ahlström, Sweden	
13:55-14:10	Discussion	
14:10-14:30	Artificial intelligence in reproductive medicine Andrea Bernabeu, Spain	
14:30-15:30	NEW OPTION TO TREAT OBESITY IN OBGYN	HALL A
Capsule	Health issues and obesity epidemic - the place of GLP-1 antagonist	
Chairpersons	Anja Pinborg, Denmark Signe Sørensen Torekov, Denmark	
14:30-14:50	GLP-1 agonist in women with PCOS Joop Laven, Netherlands	
BMI, METABOLISM AND REPRODUCTIVE RESULTS		
14:50-15:10	BMI and gamete donation: A model to dissect its reproductive impact Amelia Rodriguez, Spain	
15:10-15:30	Obesity, exercise, GLP-1 agonists and ART Signe Sørensen Torekov, Denmark	
15:30-16:00	Coffee break	
16:00-17:30	ISTHMOCELE (UTERINE NICHE): A PROBLEM THROUGHOUT THE FIELDS OF OBGYN	Hall A
Capsule	The interface between FMF, gynecology and infertility consideration	
Chairpersons	Yariv Yogev, Israel Joop Laven, Netherlands	
16:00-16:25	Uterine wound Healing and prevention of niche Judith Huirne, Netherlands	
16:25-16:45	Diagnosis of isthmocele (Uterine nich). A SWAT analysis Juan Luis Alcázar Zambrano, Spain	
16:45-17:10	Clinical implications of the uterine niche Judith Huirne, Netherlands	
17:10-17:30	When to operate and when not and how Filipa Osório, Portugal	
17:30-18:30	INDUSTRY SUPPORTED SESSION	HALL A

The 32nd World Congress on
Controversies in Obstetrics,
Gynecology & Infertility (COGI)
All About Women's Health

November 21-23, 2024
Lisbon, Portugal

THURSDAY, NOVEMBER 21

18:30-19:30	OPENING SESSION	HALL A
Chairpersons	Zion Ben Rafael , <i>Israel</i> Bart Fauser , <i>Netherlands</i>	
18:30-19:15	Introduction Bart Fauser , <i>Netherlands</i> Keynote lecture in honor of Nobel Prize Laureate Robert G. Edwards Basil Tarlatzis , <i>Greece</i>	
19:15-19:30	Young Scientist Best Abstract Award Award presentation by: Rene Frydman , <i>France</i> Diogo Aryes-De-Campos , <i>Portugal</i>	

FRIDAY, NOVEMBER 22

ART/IVF/INFERTILITY - HALL A

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
Chairpersons	Zion Ben Rafael, Israel Luis Ferreira Vicente, Portugal	
08:30-09:00	Chronic endometritis and female fertility Ana Aguiar, Portugal	

09:00-10:30	OVARIAN STIMULATION	HALL A
Capsule	The first step in IVF remains in the shade between science and art	
Chairpersons	Rene Frydman, France Zion Ben Rafael, Israel	
09:00-09:20	The optimal number of oocytes we should aim for with ovarian stimulation Bart Fauser, Netherlands	
09:20-09:40	The ovarian stimulation protocol: Does the FSH type matter, alfa, beta, delta? Frank Broekmans, Netherlands	
09:40-10:10	Debate: Adding hCG/LH to the FSH for ovarian stimulation: Are we done with this topic?	
09:40-09:50	Pro: Claus Yding Andersen, Denmark	
09:50-10:00	Con: Edgardo Somigliana, Italy	
10:00-10:10	Discussion	
10:10-10:30	Abortion Prevention Gian Carlo Di Renzo, Italy	

10:30-10:50	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	
--------------------	---	--

10:50-12:20	IVF IN OLDER WOMEN	HALL A
Capsule	The high success rate in IVF had skipped the older age women why?	
Chairpersons	Bart Fauser, Netherlands Teresa Almeida Santos, Portugal	
10:50-11:10	The true prevalence of recurrent aneuploidy Paul Pirtea, France	
11:10-11:45	ART for unexplained infertility in older women Edgardo Somigliana, Italy	
11:45-12:20	Debate: Standardization of IVF cycle protocols is advisable	
11:45-11:55	Pro: Frank Broekmans, Netherlands	
11:55-12:05	Con: Norbert Gleicher, USA	
12:05-12:20	Discussion	

12:20-12:25	<i>Short break</i>	
--------------------	--------------------	--

12:25-13:25	INDUSTRY SUPPORTED SESSION	HALL A
--------------------	-----------------------------------	---------------

13:25-14:10	<i>Lunch break, visit the exhibition, and e-poster viewing</i>	
--------------------	--	--

14:10-15:10	REPRODUCTIVE TECHNOLOGY SESSION	HALL A
--------------------	--	---------------

FRIDAY, NOVEMBER 22

15:10-15:15	Short break	
15:15-16:45	ENDOMETRIUM AND EMBRYO TRANSFER	HALL A
Capsule	How important is the endometrium really?	
Chairpersons	Edgardo Somigaliana, Italy Ricardo Santos, Portugal	
15:15-15:50	Debate: Is thin endometrium a predictor for poor ART outcomes?	
15:15-15:25	Yes: Shari Mackens, Belgium	
15:25-15:35	No: Paul Pirtea, France	
15:35-15:50	Discussion	
15:50-16:10	The endometrium in polycystic ovary syndrome Johannes Ott, Austria	
16:10-16:25	Home based monitoring before frozen embryo transfer Shari Mackens, Belgium	
16:25-16:45	The changing dogma of FET: HRT should stop being the first choice and only be done when natural cycles are not possible Samuel Santos-Ribeiro, Portugal	
16:45-17:05	Coffee break, visit the exhibition, and e-poster viewing	
17:05-18:35	PGT-A: BENEFITS AND RISKS	HALL A
Capsule	PGT- Lucrative, costly and commonly used- is it also needed	
Chairpersons	Rita Vassena, Spain Teresa Almeida Santos, Portugal	
17:05-17:50	Debate: Is PGT-A a safe procedure in 2024?	
17:05-17:20	Yes: Paul Pirtea, France	
17:20-17:35	No: Sebastiaan Mastenbroek, Netherlands	
17:35-17:50	Discussion	
17:50-18:35	Debate: Should we consider PGT-P?	
17:50-18:05	Yes: Darren Griffin, UK	
18:05-18:20	No: Rita Vassena, Spain	
18:20-18:35	Discussion	

FRIDAY, NOVEMBER 22

ART/IVF/INFERTILITY II – HALL B

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
09:00-10:30	LABORATORY WORK	HALL B
Capsule	Sometimes routine is good, sometimes is dull...Do we need to fundamentally change how we approach ICSI and embryo culture, or we are fine with current trends and protocols?	
Chairpersons	Ana Sousa Ramos, Portugal Jackson Kirkman-Brown, UK	
09:00-09:45	Debate: Should we question the composition of IVF media culture?	
09:00-09:15	Yes: Sebastian Mastebroek, Netherlands	
09:15-09:30	No: Filippo Zambelli, Spain	
09:30-09:45	Discussion	
09:45-10:30	Debate: ICSI for all?	
09:45-10:00	Yes: Aida Pujol, Spain	
10:00-10:15	No: Rita Vassena, Spain	
10:15-10:30	Discussion	
10:30-10:50	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	
10:50-12:20	MITOCHONDRIA AND REPRODUCTION	HALL B
Capsule	We could not live without them, and yet for many in IVF the mitochondria remain a mystery. This session dives into the role of mitochondria in defining oocyte and embryo quality, and overall health	
Chairpersons	Sebastian Mastebroek, Netherlands João Ramalho-Santos, Portugal	
10:50-11:20	Mitochondrial variants and IVF outcomes in newborns Claudia Spits, Belgium	
11:20-11:50	PGT-M for mitochondrial diseases: For whom and how Bert Smeets, Netherlands	
11:50-12:20	Maternal spindle transfer for the avoidance of mitochondrial disease Nuno Costa-Borges, Spain (virtual)	
12:20-12:25	<i>Short break</i>	
12:25-13:25	INDUSTRY SUPPORTED SESSION overflow room	HALL B
13:25-14:10	<i>Lunch break, visit the exhibition, and e-poster viewing</i>	
14:10-15:10	REPRODUCTIVE TECHNOLOGY SESSION overflow room	HALL B
15:10-15:15	<i>Short break</i>	

FRIDAY, NOVEMBER 22

15:15-16:45	HAS SEMEN ANALYSIS LOST ITS RELEVANCE?	HALL B
Capsule	Can we do any better beyond using ICSI	
Chairpersons	Bart Fauser, Netherlands Rita Vassena, Spain	
15:15-15:35	DNA fragmentation João Ramalho-Santos, Portugal	
15:35-15:55	Swimming patterns Jackson Kirkman-Brown, UK	
15:55-16:15	Association with reproductive outcomes Aïda Pujol, Spain	
16:15-16:45	Countercurrent lecture: Can we improve semen quality? Martin Blomberg Jensen, Denmark	

16:45-17:05	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	
--------------------	---	--

17:05-18:35	NEW PREDICTORS OF IVF SUCCESS?	HALL B
Capsule	From uterine volume to protein biomarkers, here we explore upcoming predictors of IVF success and their role in personalizing reproductive care	
Chairpersons	Luís Ferreira Vicente, Portugal Attila Vereczkey, Hungary	
17:05-17:35	Uterine volume and endometrial compaction as predictors of implantation Baris Ata, Turkey (virtual)	
17:35-18:05	Individualizing the timing of oocytes retrieval Norbert Gleicher, USA	
18:05-18:35	Seminal plasma biomarkers of successful IVF Signe Altmäe, Spain	

GYNECOLOGY – HALL C

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
--------------------	--	--------------------

09:00-10:30	ENDOMETRIOSIS	HALL C
Capsule	Early identification and treatment of endometriosis improves reproductive health	
Chairpersons	George Creatsas, Greece Eileen Manalo, Philippines	
09:00-09:20	Mechanisms of endometriosis related infertility and pain Marie-Madeleine Dolmans, Belgium	
09:20-09:45	Oral GnRH Antagonist for treatment of endometriosis Pedro Pinto, Portugal	
09:45-10:05	Recurrence after surgery. How often? How to manage? Jacques Donnez, Belgium	
10:05-10:30	Is TLH really superior to abdominal hysterectomy? Jessica Ybanez Morano, USA	

10:30-10:50	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	
--------------------	---	--

FRIDAY, NOVEMBER 22

10:50-12:20	CONTRACEPTION	HALL C
Capsule	The supremacy of combined OC's is being challenged by a more personal approach of tailoring a solution according to patient's conditions	
Chairpersons	Alessandra Graziottin, Italy Herjan Coelingh Bennink, Netherlands	
10:50-11:10	Cardiovascular risk and hormonal contraception: Yes or no! First choice or progestin only pills Santiago Palacios, Spain	
11:10-11:35	Contraception and endometriosis Rossella Nappi, Italy	
11:35-11:55	Adolescent contraception George Creatsas, Greece	
11:55-12:20	E4 for contraception Alessandra Graziottin, Italy	
12:20-12:25	<i>Short break</i>	
12:25-13:25	INDUSTRY SUPPORTED SESSION	HALL A
13:25-14:10	<i>Lunch break, visit the exhibition, and e-poster viewing</i>	
14:10-15:10	REPRODUCTIVE TECHNOLOGY	HALL A
15:10-15:15	<i>Short break</i>	
15:15-16:45	GYNECOLOGICAL ONCOLOGY	HALL C
Capsule	Cancer patients should be informed of options for fertility preservation and future reproduction prior to cancer treatment (ASRM). However, gynecologists should be more aware of the current options and results.	
Chairpersons	Fátima Faustino, Portugal Mark Brincat, Malta	
15:15-15:45	Fertility- sparing management in recurrent gynecological cancer Pierluigi Benedetti Panici, Italy	
15:45-16:15	Fertility-sparing surgery in early-stage cervical cancer Henrique Nabais, Portugal	
16:15-16:45	Controversies in vaginal recurrence of cervical and endometrial cancer Pierluigi Benedetti Panici, Italy	
16:45-17:05	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	

FRIDAY, NOVEMBER 22

17:05-18:35	GENITOURINARY SYNDROME OF MENOPAUSE (GSM)	HALL C
Capsule	Genitourinary syndrome of menopause (GSM) formerly "atrophic vaginitis" includes genital symptoms of dryness, burning, and irritation, sexual symptoms of lack of lubrication, discomfort, pain, impaired function and urinary symptoms of urgency, dysuria and recurrent urinary tract infections. What is the best treatment?	
Chairpersons	Mark Brincat, Malta Franco Borruto, Monaco	
17:05-17:40	Debate: Laser treatment is the first-line choice for Genitourinary Syndrome of Menopause (GSM)?	
17:05-17:15	Yes: Zdenko Vizintin, Slovenia	
17:15-17:25	No: Santiago Palacios, Spain	
17:25-17:40	Discussion	
17:40-18:00	Anatomical and physiological changes of the vulvovaginal tract during peri-menopause Alessandra Graziottin, Italy	
18:00-18:20	Can lasers reduce overactive bladder symptoms? Santiago Palacios, Spain	
18:20-18:35	Vaginal aplasia – vaginoplasty George Creatsas, Greece	

FETOMATERNAL MEDICINE – HALL D

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
09:00-09:05	WELCOME TO THE FMM PROGRAM	HALL D
Chairpersons	Yariv Yogev, Israel Asma Khalil, UK	
09:05-10:30	CONTROVERSIES IN LABOR AND DELIVERY	HALL D
Chairpersons	Gerard Visser, Netherlands Diogo Ayres-de-Campos, Portugal	
09:05-09:25	How should we diagnose and manage arrested and protracted labor? Diogo Ayres-de-Campos, Portugal	
09:25-09:55	Debate: 1. Should we give prophylactic antibiotics at normal and operative vaginal delivery 2. Should we give azithromycin prophylactically at cesarean delivery?	
09:25-09:35	Yes: Anat Lavie, Israel	
09:35-09:45	No: Vincenzo Berghella, USA (virtual)	
09:45-09:55	Discussion	
09:55-10:10	How to treat intrapartum fever? When do deliver? Austin Ugwumadu, UK	
10:10-10:25	An evidence-based cesarean delivery technique Inês Nunes, Portugal	
10:25-10:30	Discussion	
10:30-10:50	Coffee break, visit the exhibition, and e-poster viewing	

FRIDAY, NOVEMBER 22

10:50-12:20	MULTIFETAL PREGNANCY	HALL D
Chairpersons	Asma Khalil, UK Liran Hiersch, Israel	
10:50-11:05	Gestational diabetes mellitus in twins- more physiological than pathological? Liran Hiersch, Israel	
11:05-11:20	Fetal Growth Restriction and Significance of Size Discordance in Twins Nir Melamed, Canada	
11:20-11:40	Debate: Cesarean delivery for all twins?	
11:20-11:25	Yes: Amir Aviram, Canada	
11:25-11:30	No: Eran Ashwal, Canada	
11:30-11:40	Discussion	
11:40-12:00	Controversies in preterm birth in twins Asma Khalil, UK	
12:00-12:20	Debate: Fetal reduction for all?	
12:00-12:05	Yes: Yariv Yogev, Israel	
12:05-12:10	No: Eyal Sheiner, Israel	
12:10-12:20	Discussion	
12:20-12:25	<i>Short break</i>	
12:25-13:25	INDUSTRY SUPPORTED SESSION	HALL A
13:25-14:10	<i>Lunch break, visit the exhibition, and e-poster viewing</i>	
14:10-15:10	REPRODUCTIVE TECHNOLOGY SESSION	HALL A
15:10-15:15	<i>Short break</i>	
15:15-16:45	INDUCTION OF LABOR	HALL D
Chairpersons	Nuno Clode, Portugal Liran Hiersch, Israel	
15:15-15:35	Debate: Should all women be induced at 38-39 weeks of gestation?	
15:15-15:20	Yes: Asma Khalil, UK	
15:20-15:25	No: Liran Hiersch, Israel	
15:25-15:35	Discussion	
15:35-15:50	Should we use prostaglandins for cervical ripening in women with a previous cesarean? Yariv Yogev, Israel	
15:50-16:05	When to deliver patients with a single umbilical artery? with an umbilical vein varix? Inês Nunes, Portugal	
16:05-16:25	Cervical ripening at home for all? Mifepristone, Folley catheter ballon, and tafoxiparin Maria Afonso, Portugal	
16:25-16:45	Debate: To induce or not to induce large-for-gestational-age fetuses	
16:25-16:30	Yes: Jim Thornton, UK	
16:30-16:35	No: Emmanuel Attali, Israel	
16:35-16:45	Discussion	

FRIDAY, NOVEMBER 22

16:45-17:05	Coffee break, visit the exhibition, and e-poster viewing	
17:05-18:35	PRETERM DELIVERY	HALL D
Chairpersons	Asma Khalil, UK Yariv Yogev, Israel	
17:05-17:25	Debate: Progesterone after the diagnosis of threatened preterm labor	
17:05-17:10	Yes: Ana Areia, Portugal	
17:10-17:15	No: Emmanuel Attali, Israel	
17:15-17:25	Discussion	
17:25-17:45	Presentation of a case at high-risk for preterm labor - What to do? For Cerclage For Pessary For Progesterone Conclusion Vincenzo Berghella, USA (virtual)	
17:45-18:05	Debate: Corticosteroids before 24 weeks or after 34 weeks?	
17:45-17:50	Yes: Amir Aviram, Canada	
17:50-17:55	No: Gerard Visser, Netherlands	
17:55-18:05	Discussion	
18:05-18:20	When to deliver in preterm pre-labor rupture of membranes? Luisa Pinto, Portugal	
18:20-18:35	Magnesium sulphate – a summary of evidence Gerard Visser, Netherlands	

SATURDAY, NOVEMBER 23

ART/IVF/INFERTILITY - HALL A

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
Capsule	Is the number of journals and publications growing beyond their scientific value? COGI keeps discussing this disturbing issue.	
Chairpersons	Zion Ben Rafael, Israel Asma Khalil, UK	
08:30-09:00	Research waste: A chief editor perspective Bart Fauser, Netherlands	

09:00-10:30	UTERINE ADENOMYOSIS	HALL A
Capsule	The combination of infertility and adenomyosis increases with increased patients age at treatment- what are the solutions?	
Chairpersons	Sergio Haimovich, Israel/Spain Ana Aguiar, Portugal	
09:00-09:30	How to explain the pathogenesis of adenomyosis? Marie-Madeleine Dolmans, Belgium	
09:30- 10:00	Adenomyosis: A disease associated with multiple mistakes? Luís Ferreira Vicente, Portugal	
10:00-10:30	Is there a place for medical therapy Jacques Donnez, Belgium	

10:30-11:00	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	
--------------------	---	--

11:00-12:30	ENDOMETRIOSIS	HALL A
Capsule	Strategies to increase success rate of IVF in endometriosis	
Chairpersons	Claus Yding Andersen, Denmark Anja Pinborg, Denmark	
11:00-11:20	The place for IVF and medical therapy in the management of endometriosis Baris Ata, Turkey (virtual)	
11:20-11:40	Endometriosis: Does it impact oocyte quality Pietro Santulli, France	
11:40-12:00	If and when should we offer fertility preservation in endometriosis Edgardo Somigliana, Italy	
12:00-12:30	Cycle segmentation to all in endometriosis Mauro Cozzolino, Italy	

12:30-13:30	<i>Lunch break, visit the exhibition, and e-poster viewing</i>	
--------------------	--	--

SATURDAY, NOVEMBER 23

13:30-15:00	Q&A SPEAKER'S AND AUDIENCE INTERACTION	HALL A
Chairpersons	Zion Ben Rafael, Israel Bart Fauser, Netherlands	
Panelists	Samuel Santos-Ribeiro, Portugal Sebastiaan Mastebroek, Netherlands Edgardo Somigliana, Italy Anja Pinborg, Denmark Paul Pirtea, France	
	<ul style="list-style-type: none"> • Recurrent IVF failures: What is it? What to do? • What to supplement in women over 40y after ET? • Are endometriosis and poor responders related? • Is endometrial scratching effective? • ERA test: Are we done with the issue? • Should we keep doing assisted hatching? • Do you foresee a return or revival of classic IVF with no add-ons? • Sperm microfluidic does not seem to improve results, or does it? • How do you choose a culture medium for your lab? Aren't they all more or less the same? • How do you prioritize slow growing embryos? 	

15:00-16:30	FIBROID	HALL A
Capsule	A persisting problem in IVF setting in older age	
Chairpersons	Rui Miguelote, Portugal Ana Aguiar, Portugal	
15:00-15:50	Debate: Myoma FIGO 3 – is hysteroscopy approach feasible?	
15:00-15:15	Yes: Sergio Haimovich, Israel/Spain	
15:15-15:30	No: TBA	
15:30-15:50	Discussion	
15:50-16:30	Intramural myoma and fertility: When to operate or not to operate, how to avoid the recurrence of myoma after myomectomy Jacques Donnez, Belgium	

ART/IVF/INFERTILITY II – HALL B

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
09:00-10:30	REPRODUCTIVE MICROBIOME: USEFUL OR CONFUSING?	HALL B
Capsule	Both tests of microbiome composition and methods to modulate the reproductive microbiome are used in clinics, but where are we in understanding the relationship between microbiome and reproduction?	
Chairpersons	Mauro Cozzolino, Italy João Ramalho-Santos, Portugal	
09:00-09:30	Are current vaginal microbiome tests accurate and relevant? Katharina Späth, Italy	
09:30-10:00	The semen microbiome as marker of male infertility Rhianna Davies, UK	
10:00-10:30	Gut microbiota and PCOS: A new avenue of treatment? Joop Laven, Netherlands	

SATURDAY, NOVEMBER 23

10:30-11:00	Coffee break, visit the exhibition, and e-poster viewing
-------------	--

11:00-12:30	THE FUTURE OF NON-INVASIVE EMBRYO SELECTION	HALL B
Capsule	Not just PGT: New technologies that will revolutionize how we chose embryos for transfer	
Chairpersons	Sebastiaan Mastenbroek , <i>Netherlands</i> Rhianna Davies , <i>UK</i>	
11:00-11:30	Hyperspectral imaging of viable embryos Samuel Ojosnegros , <i>Spain</i>	
11:30-12:00	Single embryo magnetic resonance Marco Grisi , <i>Switzerland</i>	
12:00-12:30	Non-invasive PGT-A, are we there yet? Carmen Rubio , <i>Spain (virtual)</i>	

12:30-13:30	Lunch break, visit the exhibition, and e-poster viewing
-------------	---

13:30-15:00	THE FUTURE OF IVF IS NOW	HALL B
Capsule	Automation and artificial intelligence are driving new ways of providing reproductive care, will they live up to their promise of better results and more access to treatments?	
Chairpersons	Ricardo Santos , <i>Portugal</i> Katharina Späth , <i>Italy</i>	
13:30-14:00	Artificial intelligence for personalized ovarian stimulation and trigger Núria Correa , <i>Spain</i>	
14:00-14:30	The fully automated embryology laboratory Nuno Costa-Borges , <i>Spain (virtual)</i>	
14:30-15:00	Telemedicine and remote monitoring in IVF Amelia Rodriguez , <i>Spain</i>	

15:00-16:30	TO SEE WHAT YOU CANNOT SEE	HALL B
Capsule	Technologies of the future let us understand never before seen events in reproduction	
Chairpersons	Samuel Ojosnegros , <i>Spain</i> Mattheos Fraidakis , <i>Greece</i>	
15:00-15:30	The oocyte as you have never seen it before: From mitochondria to spindle and back Filippo Zambelli , <i>Spain</i>	
15:30-16:00	Artificial ovary – where are we standing? Marie-Madeleine Dolmans , <i>Belgium</i>	
16:00-16:30	Blastoids and organoids to model human implantation Laurent David , <i>France (virtual)</i>	

SATURDAY, NOVEMBER 23

GYNECOLOGY – HALL C

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A <i>only</i>
09:00-10:30	MENOPAUSE – WHAT'S NEW	HALL C
Capsule	Do we have better solutions than simple HRT?	
Chairpersons	Santiago Palacios, Spain Johannes Ott, Austria	
09:00-09:45	Debate: NK receptor antagonists should be considered as a first line menopause treatment option in all women not contraindicated to using Menopausal Hormone Therapy?	
09:00-09:15	For: Nick Panay, UK	
09:50-09:30	Against: Rossella Nappi, Italy(virtual)	
09:30-09:45	Discussion	
09:45-10:30	Debate: Estetrol rather than estradiol should be the future of Menopausal Hormone Therapy?	
09:45-10:00	For: Herjan Coelingh Bennink, Netherlands	
10:00-10:15	Against: Mark Brincat, Malta	
10:15-10:30	Discussion	
10:30-11:00	Coffee break, visit the exhibition, and e-poster viewing	
11:00-12:30	POSTMENOPAUSE TREATMENT	HALL C
Capsule	Nick Panay, UK Eileen Manalo, Philippines	
11:00-11:15	Postmenopausal hormone treatment and the risk for malignancies Johannes Ott, Austria	
11:15-11:30	Can AMH predict menopause Frank Broekmans, Netherlands	
11:30-12:00	Debate: Should androgens be routinely added to menopause treatment	
11:30-11:40	Yes: Alessandra Graziottin, Italy	
11:40-11:50	No: Johannes Ott, Austria	
11:50-12:00	Discussion	
12:00-12:30	Debate: Estrogen Vs. non hormonal Rx of osteoporosis > 60 years	
12:00-12:10	For: Cláudio Rebelo, Portugal	
12:10-12:20	Against: Santiago Palacios, Spain	
12:20-12:30	Discussion	
12:30-13:30	Lunch break, visit the exhibition, and e-poster viewing	
13:30-15:00	SLS – SOCIETY OF LAPAROSCOPIC & ROBOTIC SURGEONS	HALL C
Chairpersons	Jessica Ybanez Morano, USA Pierluigi Benedetti Panici, Italy	
13:30-14:00	Adhesion prevention in GYN surgery Mona Orady, USA	
14:00-14:30	Parametrial and sciatic nerve endometriosis: Robotic approach Thiers Soares, Brazil	
14:30-15:00	Hysterectomy in 2024: Vaginal, open, laparoscopic, robotic for benign disease Jessica Ybanez Morano, USA	

SATURDAY, NOVEMBER 23

15:00-16:30	UPDATED ESHRE POI GUIDELINE: (ESHRE/MONASH/ASRM/IMS PARTNERSHIP)	HALL C
Chairpersons	Nick Panay, UK Bart Fauser, Netherlands	
15:00-15:20	Psychosocial/psychosexual/testosterone issues in POI Rossella Nappi, Italy (virtual)	
15:20-15:45	Etiology and Genetics of POI Micheline Misrahi, France	
15:45-16:05	Cardiovascular aspects of POI Sophia Kalantaridou, Greece	
16:05-16:30	Summary of Updated POI Guideline: Key Recommendations Nick Panay, UK	

FETOMATERNAL MEDICINE – HALL D

08:30-09:00	GOOD MORNING LISBON PLENARY LECTURE	HALL A only
09:00-10:30	PRENATAL DIAGNOSIS AND GENETICS	HALL D
Chairpersons	Asma Khalil, UK Alvaro Cohen, Portugal	
09:00-09:20	Debate: Should we perform array-based comparative genomic hybridization for all	
09:00-09:05	Yes: Amir Aviram, Canada	
09:05-09:10	No: Adi Reches, Israel	
09:10-09:20	Discussion	
09:20-09:40	Debate: Should we perform whole exome sequencing for all?	
09:20-09:25	Yes: Amir Aviram, Canada	
09:25-09:30	No: Adi Reches, Israel	
09:30-09:40	Discussion	
09:40-09:55	What is the value of genetic testing in small babies Asma Khalil, UK	
09:55-10:10	What are the true numbers of amniocentesis-related and chorionic-villus-sampling-related fetal losses? Eyal Sheiner, Israel	
10:10-10:30	Third trimester scan is not just a growth scan Asma Khalil, UK	
10:30-11:00	<i>Coffee break, visit the exhibition, and e-poster viewing</i>	

SATURDAY, NOVEMBER 23

11:00-12:30	OBESITY AND GESTATIONAL DIABETES MELLITUS (GDM)	HALL D
Chairpersons	Diogo Ayres-de-Campos , Portugal Dan Farine , Canada	
11:00-11:20	Debate: Should we screen and treat GDM prior to 24 weeks of gestation?	
11:00-11:05	Yes: Gerard Visser , Netherlands	
11:05-11:10	No: Eran Ashwal , Canada	
11:10-11:20	Discussion	
11:20-11:40	Debate: Should we counsel overweight/obese patients to lose weight during pregnancy?	
11:20-11:25	Yes: Gerard Visser , Netherlands	
11:25-11:30	No: Yariv Yogev , Israel	
11:30-11:40	Discussion	
11:40-11:50	What is a well-controlled patient in GDM? Yariv Yogev , Israel	
11:50-12:10	Debate: Should we induce all diabetic patients at 38 weeks of gestation?	
11:50-11:55	Yes: Yariv Yogev , Israel	
11:55-12:00	No: Gerard Visser , Netherlands	
12:00-12:10	Discussion	
12:10-12:25	Extreme obesity (BMI>50) Dan Farine , Canada	
12:25-12:30	Discussion	

12:30-13:30	Lunch break, visit the exhibition, and e-poster viewing
-------------	---

13:30-15:00	NEW ASPECTS IN FETAL MEDICINE	HALL D
Chairpersons	Asma Khalil , UK Susana Santo , Portugal	
13:30-13:50	Is there a role for fetal surgery in neural tube defects? Jan Deprest , Belgium (virtual)	
13:50-14:15	In utero gene therapy - a new horizon? Anna David , UK	
14:15-14:35	Long-term outcomes of fetal growth restriction Eyal Sheiner , Israel	
14:35-14:55	New developments in the area of non-invasive prenatal testing from fetal DNA in maternal blood Wolfgang Holzgreve , Germany	
14:55-15:00	Discussion	

SATURDAY, NOVEMBER 23

15:00-16:30	FETAL GROWTH RESTRICTION (FGR) AND PRE-ECLAMPSIA	HALL D
Chairpersons	Asma Khalil, UK Maria Afonso, Portugal	
15:00-15:20 15:00-15:05 15:05-15:10 15:10-15:20	Debate: We can screen for pre-eclampsia but is treatment efficient? Yes: Luisa Pinto, Portugal No: Jim Thornton, UK Discussion	
15:10-15:35	When to recommend delivery in late-onset FGR? Nir Melamed, Canada	
15:35-15:55 15:35-15:40 15:40-15:45 15:45-15:55	Debate: Breaking growth curve during pregnancy not reaching the 10th percentile- A concern? Yes: Nir Melamed, Canada No: Jim Thornton, UK Discussion	
15:55-16:30	What is the best strategy to prevent recurrent pre-eclampsia- aspirin, low-molecular-weight heparin, statins, progesterone, combination of these?, Moderators: Asma Khalil, UK Yariv Yogev, Israel Panel Discussion: Nir Melamed, Canada Jim Thornton, UK Luisa Pinto, Portugal

LASER COURSE

LASERS AND MAGNETIC STIMULATION FOR WOMEN'S HEALTH

Supported by Fotona

Thursday, November 21, 2024
14:00-17:00 | Hall B

Course Description:

Course participants will learn the basic principles of using lasers in a variety of non- surgical and surgical procedures within the fields of minimally invasive gynecology.

The entire course constitutes of ten topics divided into four parts. In Part I the use of FotonaSmooth Erbium laser and magnetic stimulation for female urinary incontinence will be discussed. The second part is dedicated to GSM, microbiota, POP and Laxity, while in Part III experts will present additional new innovative applications as well as the range of many possible laser treatments. In the last part (IV) participants will have to complete an End-of-Course Test. Upon completing the End-of-Course Test, the participants will receive the Course Certificate.

5 min Introduction by Program Coordinator - Zdenko Vizintin

15 min Overview of Laser and Magnet Technology for Gynecology -Zdenko Vizintin

PART I – Lasers and Magnetic Stimulation for Urinary Incontinence

15 min Non-ablative Erbium Laser for SUI - Aleksandra Novakov-Mikic

15 min Combination of Laser and Magnetic Stimulation for SUI - Katja Pirc

15 min Laser treatment as an option for complications post mid-urethral sling surgery for SUI - Zdenko Vizintin

8 min Q&A of Part I - Aleksandra Novakov-Mikic and Katja Pirc

PART II – Vaginal Erbium Laser for GSM, POP and Vaginal Laxity

15 min Non-ablative ErYAG laser for GSM – 10 years of experiences - Katja Pirc

15 min Laser treatment of vaginal microbiota in women with GSM - Leticia Lazzaretta

15 min Use of Erbium Laser for POP and Vaginal Laxity - Zdenko Vizintin

8 min Q&A of Part II Katja Pirc and Aleksandra Novakov-Mikic

PART III –More Laser Applications for Women's Health

15 min Laser Treatment of Lichen Sclerosus et Atrophicus - Aleksandra Novakov Mikic

15 min Vulvar Pain (Vulvodynia, Superficial Dyspareunia) and Lasers - Katja Pirc

15 min Other Laser Applications in Gynecology - Zdenko Vizintin

7min Q&A of Part III - Aleksandra Novakov Mikic and Leticia Lazzaretta

PART IV - Test

10 min End-of-Course Test

INDUSTRY SUPPORTED SESSION

PROGESTERONE IN OVARIAN STIMULATION AND IMPLANTATION

Supported by Gedeon Richter

Friday, November 22, 2024

12:25-13:25 | Hall A

Chairperson	Sergio Soares, Portugal
12:25-12:45	Progestin primed ovarian stimulation: ready for prime time? Human Fatemi, UAE
12:45-13:05	Personalized luteal phase support in artificially prepared endometrial cycles: what can we learn from serum progesterone measurements? Elena Labarta, Spain
13:05-13:25	Scheduling the natural cycle: The progesterone programmed frozen embryo transfer Samuel Santos-Ribeiro, Portugal
